## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the prior art alone or in combination discloses the measuring the in-rush current following power-on; determining a new duty cycle and frequency for the power conversion system in response to the measured in-rush current; and storing the determined duty cycle and frequency for use by the power conversion system. The prior art only discloses the sensing of the inrush current not adjusting the duty ratios and frequencies based on this measurement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
